THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of *Notes & Queries* on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or. *Notes and Queries on the Far East*, is issued in intervals of two months, each number containing about 60 octavo pages, accompanied with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such illustrations.

The subscription is fixed at \$6.50 postage paid per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelago and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a résumé in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes," (short references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The *China Review* for July and August, 1875, is at hand. It says that forty-two issues were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a six-page, bi-monthly, repository of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address, *China Review*, Hongkong.—Northern Christian Advocate (U.S.)

Trainer's Oriental Record contains the following from the *China Review*:—This is the title of a periodical, the first number of which has lately reached us from Hongkong, where it has been set on foot to some respects a continuation of *Notes and Queries on China and Japan*, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the *Calcutta Review*. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs corps, and the missionary body, among whom a high degree of Chinese scholarship is now reasonably cultivated, and who are severally represented in the larger number of the literary papers highly creditable to their respective authors. In a paper on Dr. Legge's *She King*, by the Rev. E. J. Etis, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese postmaster of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects will do much which was displayed during the lifetime of its predecessor in the field, and that the *China Review* may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the governors and securities necessary to place it on a business and legal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan—from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of them.

The field open to a paper of this description—conducted by native efforts, but progressive and anti-subtractive in tone—in almost limitless. It is on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to:

TRADE MARK.—*Selected by H. W. Gerrard.*

HEALTH, STRENGTH, & ENERGY.

PHOSPHODYNE.

Trade Mark—**PHOSPHODYNE,** DISCOVERED AND SO NAMED, A.D. 1862.

BY R. D. LALOR, M. D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHORUS in combination with the Vegetable Alkaloids Quinine, Tyropepin, Xanthoxylon, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably elegant and pleasant Tasted Preparation, equal to the best Wine, perfectly free from Strychnia and all other dangerous Active Drugs; superseding the numerous objectionable forms of Phosphorus Pills, Tablets, Oils, and other nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made Public by DR. R. D. Lalor, in 1862.

To Residents in India, China, and the Colonies, it will prove invaluable as a **REAL** Liver Tonic and a Vitalizing Restorative.

This Phosphoric combination, the Wonder of Modern Chemistry, is pronounced by the most eminent members of the Medical profession to be unequalled for its power in replenishing and invigorating the Vitality of the Body; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE; and for developing all the Powers and Functions of the system to the highest degree; by its being agreeable to the palate, and innocent in its action. While retaining all its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the PRESENT AGE, for the SPECIFIC and VITALIZING CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulence, Nervous Fauces, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Spinal Column, Lumbago, Sciatica, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Rickets (in Children), Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the delicacy of the Vital Forces, whether arising from Climate, Brain Feig, or whatever cause.

DR. J. COLLIS BROWNE'S CHLORODYNE (Ex Army Med. Staff) IS THE ORIGINAL AND ONLY GENUINE.—
CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne, being the first to record the name of his friend Freeman, who he reported had been born to prominent Hospital Physicians of London that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See Times, July 12, 1864.
The patient therefore, are cautioned against taking any other than Dr. J. Collis Browne's CHLORODYNE.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.—
CHLORODYNE is the best remedy known for cough, consumption, bronchitis, asthma, &c.—CHLORODYNE effectively checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague, &c.—
CHLORODYNE acts like a charm in diarrhoea, and is the only specific in cholera and dysentery.

CHLORODYNE effectively cuts short all attacks of pleuro-pathy, hysteria, palpitation and spasms.—
CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, tooth-ache, meningitis, &c.

PHOSPHODYNE, the Antidote for Climatic Disease. The Remedial properties of DR. LALOR'S PHOSPHODYNE have spread its fame throughout every part of the world, and the medical outcome of which is, that the sale has now become enormous in India, China, Africa, and other Hot Climates. This increased demand is attributable to the fact of its possessing in the most perfectly assimilable form the essential Vitalizing properties of PHOSPHORUS, which reanimates the exhausted functions of Life when impaired by Heat or other causes. A very large number of Testimonials from almost every part of the World freely speak from distinguished Families, Private Persons, Military, Naval, Scientific and Professional Men who are well known, speak of its marvellous powers in Nervous Debility, WANT OF STAMINA, FEVER, MALAQUOUS DISEASES, and as a LIVER TONIC.

PUBLIC NOTICE AND WARNING.—To Medicine Vendors and the Public in Great Britain, India, China, and the Colonies.—DR. LALOR'S PHOSPHODYNE is manufactured at and is obtainable only direct from DR. LALOR, 82, Grafton Street, London, England, WHOLESALE and EXPORT HOUSES are specially requested to NOTE this, and to pass their Indents through the London Houses, or English Firms of known responsibility, so to ensure their being supplied with the Special Medicines prepared solely by DR. R. D. Lalor, 82, Grafton Street, London, England. Sold in Bottles of 16d, 2s, 6d, and 1s.

NOTICE.—The Name DR. LALOR'S PHOSPHODYNE is known in the glass bottle, and the genuine Phosphodyne is manufactured at and is obtainable only direct from DR. LALOR, 82, Grafton Street, London, England, WHOLESALE and EXPORT HOUSES are specially requested to NOTE this, and to pass their Indents through the London Houses, or English Firms of known responsibility, so to ensure their being supplied with the Special Medicines prepared solely by DR. THE CHINA MAIL.

RETURNS of public works for the month ended 30th September and 31st October, 1880, are published for general information in to-day's *Gazette*. The return is made up under seven headings, namely—the date of the original order for the commencement of the work; the date of the completion of the estimate for the work; the date of the commencement of the work; the present condition of the work; the amount of the estimate; the amount expended to date; and the balance remaining. The amount of estimate for the various works in hand was \$306,760; there was expended to 30th Sept. \$26,442, and in hand \$21,317. The estimate for works being carried on in Oct. was \$77,500; there was expended \$52,351, and the balance was \$25,148.

We are glad to learn that Mr C. E. Thomson, late manager of the National Bank of India at Shanghai, has received orders to rejoin the Bank as manager at Madras. Mr Thomson, who acted for some time as manager at this port, had retired under some economical scheme that has been recently inaugurated, and had disbanded business for himself at Shanghai. He proceeds to Calcutta to-day by the steamer *Ariatton Apar*, and he will, we doubt not, carry with him the congratulations of his friends both here and in the Model Settlement. We have already alluded to the closing of the National's branch in Hongkong, and we expect but remark now that the reconsideration of its action, in regard to Mr Thomson, does the Board of Directors credit, while it preserves to the Bank the services of an officer experienced in its business.

THE house No. 8 Fletcher's Buildings, in the Queen's Road East, has been recently taken by the Naval Seamen's Club, under the presidency of Commodore T. Smith, and every accommodation is now provided on the premises for the members of the Club, and their friends, to enable them to pass a pleasant day on shore, and there are also comfortable quarters for the night, if required. On the ground floor of the building is a spacious bar, and on crossing the yard at the back of the premises a skittle alley and a first-class bowling alley. On the first floor are a Billiard Room with a full-sized English table, and a Bagatelle Room adjoining. There is also a Reading Room, in which is provided a selection of the journals and magazines of the period, and a small library of books. On the second floor are a number of bed rooms which afford sleeping accommodation for from twenty to thirty members. The whole premises are lighted by gas, and are spacious, inviting and comfortable and a very great improvement on the former local habitation of the Club. The establishment is under the management of Mr H. J. Turner.

The British Larque Mary Mildred reported Left Newcastle a.m.w. Sept. 22, with coal; wind light from N.E. with fine weather. On the 23d, wind increased to a gale with very heavy cross seas, causing the ship to labour heavily, and to shift great quantities of water. The gale lasted three days. Light and moderate northeast winds and northeast breezes with fine weather till the 26th. Passed N. of Falk Island on the 30th, weather fine and moderate, easterly and N.E. breeze until the 5th Oct. Light and variable winds and heavy rains thence to 8° north of S Line, which we crossed in long. 109° 7'. Sighted Ladron Islands on Nov. 2nd, carrying fresh trades with five clear weather. Passed through the Bashi Channel on the night of the 10th Nov., with heavy gales and tremendous sea, arrived off the Nuecas at midnight, Nov. 12th, after a passage of 84 days.

The P. & O. steamer *Indonesia* reports: Left Singapore at 8 a.m. on 8th Nov., and had light E. to N.E. winds as far as 8° 30' North and 110° East, when the wind freshened to a moderate gale from N.E. with a high sea running. 8th Nov., midday barometer 30.12, wind unsteady, violent squalls and incessant rain. 9th Nov., at 10 a.m., wind north and increasing in force, weather becoming very restlessness; wind from N.E. with high seas; passengers below deck. At noon, barometer 30.17 N., Lop. 112° 40' E. At 1.30 p.m., barometer falling fast, 28.77; wind north; every indication of an approaching typhoon. Ran ship to the south. At 4 p.m., wind backed to N.W., blowing a strong gale with fierce squalls, and incessant blinding rain, a very high sea running, ship labouring heavily and shipping much water. At 5 p.m., barometer 29.70, wind veering to N. and N.E. Pot ship's head to the north, engine going easy. At 8 p.m., barometer 29.60, wind slowly veering to E.N.E., blowing furiously and with the same high sea. At 9 p.m., barometer 29.70 and rising fast; frequent lightning to the S.S.E. where the typhoon storm-center evidently was; weather inclined to clear. Midnight, strong E.N.E. gale and very high sea; barometer 29.54 went on full speed. Since then had an unusually strong monsoon, with a high sea running and a strong set to the westward.

The Foochow Herald, writing on the sinking of the *Braemar Castle* by the Breconshire, says:—

It is a little singular that these steamers, one of which has thus brought destruction upon the other at a considerable distance from China, should both have been destined to the consequences of the same accident out here, and that the *Braemar Castle* should, a second time this year, have had the misfortune to get into serious trouble, this having whilst waiting for her tea cargo in Hankow in May last, been harried from her moorings by the strength of the stream and sustained much damage by collision with the steamer *Afrique* that she had to return for repairs to Shanghai, whence she subsequently loaded for London.

Hedges & Co.'s Weekly Shipping Report, Fuguo Anchorage, 30th October:—

Arrivals During the Week.—Oct. 23, *Tsin-tien*, from Swatow; 23, *Namo*, from

Hongkong; 24, *Fai Ho*, from Amoy; 24, *Hao San*, from Shanghai; 24, *Stentor*, from Shanghai; 25, *Olenes*, from Shanghai; 25, *Glamis Castle*, from Shanghai; 27, *Forward Ho*, from Shanghai; 28, *Kwang Tung*, from Hongkong.

Departures During the Week.—Oct. 23, *Diamond*, for London; 24, *Nelson Hawerton*, for Melbourne; 24, *Scheldrake*, for Cruise; 25, *Penitentiary*, for Tientsin; 26, *Exodus*, for Shanghai; 27, *Namo*, for Hongkong; 27, *Stentor*, for London; 28, *Hao San*, from Shanghai; 29, *Glenesley*, from London.

Shipping in Port.—*Henrietta*, *Fai Ho*, *Glamis Castle*, *Forward Ho*; *Kwang Tung*.

UNDER the heading of Sundry Foreign Imports the Customs Commissioner of Amoy has the following:—

Amongst other items imported by Chinese from Singapore, and Straits Settlements, Simon's Town, and Siam, two somewhat extraordinary articles were in the shape of horse hides and dried beef. During the season now reviewed 6,664 horse hides arrived, and 4,351 pounds of beef.

The hides weighed about 7 catties each, and, while inferior to cow and buffalo, are used in the manufacture of trunks, abodes, and leather wrappers.

When it is remembered that a limited extent the horse is employed in the countries lying between the south of China and India, and hardly at all for agricultural purposes, the number of hides collected in one season seems enormous.

The dried beef—it would be a nice question to decide how much of it was in reality dried horse—in demand amongst Amoy natives who have returned to this in a state of comparative want, after harbouring the rice, sugar, and other fields of the countries enumerated as supplying the article. It sells here readily at from \$8 to \$10 per picul. *Sham* furnishes the largest supplies.
